## • COVID CONTEXT – OIV RULES RELAXATION

During the current COVID pandemic, the International Organization for Vine and Wines temporary accepted a relaxation regarding the international wine contests rules.

That means:

- recommendation for inviting national wine judges with a solid experience of international contests

## • AN OPTIMUM ANTICIPATION OF STRASBOURG EVENTS – GL EVENTS GROUP

In this particular context, both anticipation and health safety are priorities for Strasbourg Events. That is why, the organization team has considered all possible scenarios to be ready whatever the health safety and logistic adaptations will be.

According to the newly accepted OIV rules proportions, wine judges are selected to ensure the international dimension of the contest and always with the same firm determination to put in light the winegrowers of the 5 continents.
